Chapter (**5**) Introducing Adobe Photoshop) **Project 5-9**) R

Project 5-9 (pages 240–243)

Take a Digital Photograph

Directions: After you have finished your project, determine whether you have completed the criteria listed in the left column. Fill in the checklist in the shaded columns below and then turn the rubric in to your teacher along with your project.

	Student Checklist		Teacher Evaluation
Criteria	**Completed**	**Not Completed**	**Comments**
Use the diagram in Figure 5.57 to set up a photo area and take several digital photographs.			
Transfer the photos to your Save folder. In Photoshop, preview them. Open the best one.			
Remove the background from the photograph and name the new layer *Background*.			
Open Data File 5-9b and save it with a new name. Select the soccer ball and create a new layer.			
Drag your photo onto the soccer picture and adjust the size.			
Arrange layers so your photo is behind the soccer picture.			
Create an Adjustment Layer. Use a brush to create shadows on the ground below the model.			
Use the Darken blending mode and adjust the opacity of the shadow.			
Follow directions to save and print your work.
