

## Reading Tip

As you read, keep track of questions you answer in the chapter. This will help you remember what you read.

### Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> All vertebrates can maintain a nearly constant internal body temperature.	
	<b>2</b> All vertebrates are covered with skin.	
	<b>3</b> Counting the rings on the scales of some species of fish can help determine the fish's age.	
	<b>4</b> Fish have a heart and lungs similar to humans but smaller.	
	<b>5</b> Fish have an organ that keeps them from sinking or floating to the surface in water.	
	<b>6</b> Amphibians breathe through their skin.	
	<b>7</b> All amphibians live on land but reproduce in water.	
	<b>8</b> Like amphibians, reptiles also can breathe through their skin.	
	<b>9</b> Reptiles can maintain a constant internal body temperature.
