

## Reading Tip

Sometimes you make inferences by using other reading skills, such as questioning and predicting.

## Target Your Reading

Use this to focus on the main ideas as you read the chapter.

- 1 Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.
  - Write an **A** if you **agree** with the statement.
  - Write a **D** if you **disagree** with the statement.
- 2 After you read** the chapter, look back to this page to see if you've changed your mind about any of the statements.
  - If any of your answers changed, explain why.
  - Change any false statements into true statements.
  - Use your revised statements as a study guide.

Before You Read A or D	Statement	After You Read A or D
	<b>1</b> The nonliving part on an environment often determines what living organisms are found there.	
	<b>2</b> Most living organisms are mainly made up of water.	
	<b>3</b> Heat from the Sun is responsible for wind.	
	<b>4</b> Animals do not release water vapor.	
	<b>5</b> The air we breathe mostly contains nitrogen.	
	<b>6</b> Photosynthesis uses oxygen to produce energy.	
	<b>7</b> Energy can be both converted to other forms and recycled.	
	<b>8</b> Matter can be converted to other forms, but cannot be recycled.	
	<b>9</b> The majority of energy is found at the bottom on an energy pyramid.	
	<b>10</b> Water is a living part of the environment.
