## **Target Your Reading**

Use this to focus on the main ideas as you read the chapter.

**Before you read** the chapter, respond to the statements below on your worksheet or on a numbered sheet of paper.

- Write an A if you agree with the statement.
- Write a **D** if you **disagree** with the statement.

2 After you read the chapter, look back to this page to see if you've changed your mind about any of the statements.

- If any of your answers changed, explain why.
- Change any false statements into true statements.
- Use your revised statements as a study guide.

Before You Read A or D		Statement	After You Read A or D
	1	All Earth's resources are able to be replenished.	
	2	Fossil fuels must be burned to release the energy they hold.	
	3	The only unlimited source of energy for Earth is the Sun.	
	4	Air pollution can be cleaned when it reacts with sunlight.	
	5	Underground water supplies are safe from pollution.	
	6	Some household items, such as batteries and paint, are hazardous and may pollute the environment if disposed incorrectly.	
	7	Conservation can help prevent shortages of natural resources.	
	8	Certain plastics can be recycled into items such as carpeting and clothing.	
	9	Aluminum is the only metal that can be recycled.	

As you read, keep track of questions you answer in the chapter. This will help you remember what you read.
