**Vocabulary Study Guide**  
**Unit 3 Building Foundations**  
**Chapter 8 Concrete as a Building Material**

**Directions**

1. This study guide will help you understand and remember what you read. Before you read, think about what you know about each vocabulary term, even if it's not related to what you are learning. Write it down in the second column. Write what you would like to learn about the term in the third column. After reading the chapter, paraphrase what you learned. Write that in the fourth column.
2. Compare notes with at least one other classmate. By discussing the three types of things for each term, you will learn more than you would by yourself.

<b>Vocabulary Term</b>	<b>What I Know</b>	<b>What I Expect to Learn</b>	<b>What I Learned</b>
concrete			
hydration			
Portland cement			
admixture			

crazing			
efflorescence			
slump test			
consolidation			
chair
