**Vocabulary Study Guide**  
 Unit 4 Wood Frame Construction  
 Chapter 14 Structural Systems

**Directions**

1. This study guide will help you understand and remember what you read. Before you read, think about what you know about each vocabulary term, even if it's not related to what you are learning. Write it down in the second column. Write what you would like to learn about the term in the third column. After reading the chapter, paraphrase what you learned. Write that in the fourth column.
2. Compare notes with at least one other classmate. By discussing the three types of things for each term, you will learn more than you would by yourself.

<b>Vocabulary Term</b>	<b>What I Know</b>	<b>What I Expect to Learn</b>	<b>What I Learned</b>
balloon-frame construction			
platform-frame construction dead load			
in-line framing			
post-and-beam framing			

structural insulated panel			
spline			
shear wall			
load			
design value			
span table			
on center (OC)			

dead load
