Projects Across the Curriculum 1 (page 301)

Create a Weather Database

Directions: After you have finished your project, determine whether you have completed the criteria listed in the left column. Fill in the checklist in the shaded columns below and then turn the rubric in to your teacher along with your project.

Criteria	Student Checklist		Teacher Evaluation
	Completed	Not Completed	Comments
Select a location you would like to visit and track the weather in the area for one week using the Internet, TV, or a newspaper			
Write down your results in a table which includes the date, a weather description, high and low temperatures and total precipitation			
Use the information you collect to create a database table, including a field for each of the items listed above			
Use correct spelling, punctuation, and grammar			
Edit to make your database clear and free of errors
