

After You Read Answers

(Page 13) Section 1.1 After You Read Answers

Review Key Concepts

1. Most Web servers recognize **index.html** as the default home page.
2. A Web browser lets you navigate easily from page to page, view XHTML code in a graphical manner, and save or bookmark pages that you frequently visit.

(Page 19) Section 1.2 After You Read Answers

Review Key Concepts

1. Text consists of words, letters, numbers, and other symbols. Graphics are still images, such as drawings, charts, photos, and navigational buttons. Multimedia are live or recorded sound or moving images, text, or graphics.
2. Intrapage links allow you to move to a different spot on the same page. Hyperlinks are essential components of Web pages as they allow the user to easily move from one online page to another.
