Unit 5
The Child from Four to Six

Developing Community Involvement

Helping Care Givers

In this unit you have learned information that will be useful if you become a parent, babysitter, child care worker, or if you are involved in other areas of child development. In your brochure, you have put together valuable information that can be used by caregivers of four- to six-year-olds. Make copies of your brochure and distribute the copies to preschools, kindergarten classes, and babysitters in your community.

Places to distribute the brochure:

Preschools

Kindergarten classes

Babysitters

1. In what ways do you think your brochure can help these child care givers?
