**Unit 6**  
**The Child from Seven to Twelve**

**Developing Community Involvement**

**Meeting Nutritional Needs**

Proper nutrition plays a key role in the physical, emotional, social, and intellectual growth and development of seven- to twelve-year-olds. Create a list of agencies in your community that help provide for the nutritional needs of those who are financially unable to do so on their own. You might provide copies of the list to social agencies, homeless centers, religious centers, and schools in your community.

Name \_\_\_\_\_

**Unit 6**

1. Discuss how nutrition affects the physical, emotional, social, and intellectual development of seven- to twelve-year-olds.
