

TRB 8:1 (Instructions at: TRB Chapter 8, Activity 8:1)

Guess Who

You are the Special Task Group set up by a private investigating firm. You specialize in somewhat accurately guessing from things left behind at scenes of crime what kind of people their owners might be. Your report then guides the manhunt by the police.

Last night an old woman was murdered in a neighbouring house. Here is an object left behind by the murderer when he/she tried to escape. Guess what kind of person the murderer is.

Here are the questions you usually try to answer. Try and arrive at group consensus. These are first level guesses. So some of your guesses may go wrong. That doesn't matter. Do answer all the questions below.

The object given to you:
(It was found near a bench in a park.)

- Is the owner of the object male or female?
- What nationality?
- Roughly how old is the person?
- Educated up to what level?
- What kind of job?
- What is the monthly income like? (A range will do.)
- Circle any three of the attributes you are likely to find in him/her.

generous	stingy	showy	reserved	quiet	poor
smart	superstitious	religious	careless	foolish	silly
pretty	handsome	extravagant	cautious	sickly	old

TRB 8:2 (Instructions at: TRB Chapter 8, Activity 8:5)

(From PK Vasudevan, Materials Manager of an explosives company, to Mr M. Pannerselvam, General Manager, Star Explosives Private Ltd, who had written to him offering to be the company's agent in Chennai.)
