

Computerized Testing

This text is accompanied by **Wimba's Diploma** testing software, which allows you to quickly create a customized test using the test bank that accompanies this text, or by authoring your own questions. You decide the number, type, and order of test questions with a few simple clicks. Diploma is a downloadable application that allows you to create your tests without an Internet connection. Download the software and question files below that are specific to your text:

To Install Diploma:

Windows Users: Click on the file named, "[WINDOWS DIPLOMA FILE](#)" and save it to your desktop. Then extract the EXE from the zip and double-click it to run and install Diploma to your computer:
